Starting in Colonial Williamsburg, we take in the historic homes, mansions, and plantations and be transformed back in time by live performances that recount the events in the years surrounding the American Revolution.

We'll visit Jamestown - Founded in 1607, some 13 years before the Pilgrims landed at Plymouth, Jamestown served as the capital of Virginia throughout the 17th century and saw the establishment of the language, customs, laws and government practiced in our nation today. Today, the National Park Service and APVA Preservation Virginia preserve and interpret our nation's roots at Historic Jamestowne, site of America's first permanent English settlement.

Next, we move to Yorktown - a 15 minute drive from Williamsburg along the scenic Colonial Parkway, is most remembered as the site of the pivotal victory in the American Revolutionary War.

This picturesque waterfront village offers many photographic opportunities - it's a must-see for visitors to America's Historic Triangle. Visitors also enjoy strolling the quaint streets and riding the free trolley. The sounds and precision marching of The Fifes and Drums of York Town set the stage with patriotic music complementing the other historical attractions. We may even board the Schooner Alliance that is docked at the pier and offers daily sails, including breathtaking sunsets.

See where American independence was won at the Yorktown Battlefield, administered by the National

Park Service as part of the Colonial National Historical Park. Here on October 19, 1781, British forces under Lord Charles Cornwallis surrendered to the combined American and French armies led by General George Washington, concluding the battle that signaled the beginning of the end of the fight for American independence.
